

## **Clinical Practice Guideline for The Management of Asthma**

### **Program Description:**

The purpose of this knowledge-based video program is to educate members of the health care team on key principles of the 2019 Veteran Affairs and Department of Defense Management of Asthma Clinical Practice Guideline. This training will provide important updated information to members of the health care teams about managing asthma patients. This video will assist health care teams to better understand how the guideline was developed, how to use it and which interventions will provide the most benefit to their patients.
